Don't Experiment.

You Will Make No Mistake if You Follow This Norway Citizen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are all symptoms of kidney trouble and you should seek a remedy which is known to cure the kidneys. Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Norway. Follow the advice of a Norway citizen and be cured yourself.

Mrs. Solon Moore, Tucker St., Norway, Me., says: "About five years ago I was troubled with kidney complaint, accompanied by attacks of rheumatism. My whole body seemed to be affected and during these spells the secretions from my kidneys were very unnatural. I used many remedies, but I received no benefit. I at last procured Doan's Kidney Pills from Stone's drug store and they proved to be an excellent remedy. I am pleased to give this preparation my highest endorsement." 36 37.

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and no other.

Forestry Contest.

Which tree a kissing could play? Tulip. And which its father's name could say? Pawnee. Which shall we wear to keep us warm? Fir. And which do ships prefer to storm? Bay. Which will we wear to keep us cool? Pine. And in the hand which carry you? Palm. And from their pipes men shake what tree? Ash. And which is bad boys' dislike to see? Birch. Which is a girl both young and sweet? Peach. Which like a man, bright, dapper and neat? Elm. And on which do the children play? Beach. And to which tree shall we now turn? For good to wear and stuff in button? Cotton-wood. And now divide you one tree more. You've part of a dress and part of a door? Hemlock. Which tree is never seen alone? Pear. And which one is a bright warm tone? Cherry. And which in church doth office hold? Alder. And which is a tree of iron? Oak. For this one do not look so far. Which tells where charming people are. Poplar. And which one will ally the pain If properly rubbed on bruise or sprain? Which? The carpenter doth use which tree? Fir. And which tree is a tree of life? Plum. And to which tree do archers call? To show you shouldn't have looked at all. Which tree on calendars find you? Date. Which is a tree that times not few? Chestnut. And which tree is an old man's buckeye. And which for soup we sometimes plan? Crab. Which is where at? On land or sea? The Elm. And on our feet we'll wear which tree? Sandal. And which our hero's crown shall be? Laurel. Another tree to find just try. For fish and fuel for a fry? Basswood.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

We, the undersigned, have known F. J. Cheney for many years, and believe him perfectly honorable in all business transactions and financially able to carry out all obligations made by him.

WALDING, KINMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is a great remedy, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 50 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

Won't Drown You. If Dumped in Water Don't Be Scared at These.

Clothes won't drown you, says L. de B. Handley, and, moreover, he proves it by photographs that they have buoyancy, and in case of a woman, may be as efficient a life preserver as one of cork. Mr. Handley advises the swimmer who falls overboard, fully dressed, to first turn on the back and float, and while in that position to remove the shoes and coat and then keep on floating.

He points out that a swimmer can float indefinitely, and may easily tire of swimming, and tiring, may be seized with panic, which will result in drowning. "In floating," says Mr. Handley, "one can shout all one likes to attract attention, and still retain one's strength. And will not the chances of rescue be decidedly better if one lies comfortably, awaiting developments, or propelling one's self gently by an easy back stroke, than after using up one's energies in treading water or in making violent efforts to reach land by swimming?"

"Of course this advice is hard to follow, because it is contrary to every instinct of self preservation. But to quietly await developments after an unexpected and unwelcome immersion. Still, training will accomplish it. As, however, it is impossible to train the body in this case, so the mind must be relied upon to offer the right suggestion at the psychological moment, one should prepare by mentally rehearsing what is to be done in case of a spill.

Just picture to yourself the contingency of being thrown unexpectedly into the water and school yourself to turn immediately on your back in a floating position, at least until you have had an opportunity to recover from the shock and to size up the situation. Then you can decide comfortably on the course to follow.

"Don't let panic seize you. Let the fact be always uppermost in your mind that clothes have no tendency to drag you under water, that they are a help rather than a hindrance if you only know how to take advantage of the assistance they offer. Never forget that clothes or no clothes, you are afloat, naturally, so that you can stay afloat water almost indefinitely if you will only keep your wits about you, and the cases are rare indeed in which assistance does not come within a comparatively short space of time." (Recreation.)

Fascinating Hair. Every Woman Who Uses Parisian Sage Has Plenty of It.

Parisian Sage will greatly improve the attractiveness of any person's hair in a few days. It will do more; it will rid the scalp of every particle of disgusting dandruff; it will stop falling hair and itching scalp, or money back.

Parisian Sage is a daintily perfumed preparation, delightfully refreshing, and free from grease or stickiness. It will make hair grow.

Sold and guaranteed by Frank Kimball, Prop. of the Noyes Drug Store, for 50 cents a large bottle. The girl with the Auburn hair is on every bottle. 37-39

The furniture in the house is for sale. For further particulars inquire of

C. N. TUBBS & SON, 80 Main St., Norway.

Autumn Twilight.

The air is chill, the yellow leaves are falling. The sky is grey with tears that will not fall. Among the trees a few sad songsters calling. Near only sighs in answer to their call. And yet comes Eve, with silent, shadowy spaces. And yet comes Eve, with sombre, purple west. And yet comes the scare of battle from our faces. And kisses us, and softly whispers, "Rest!" Sing me a song of twilight, O sad singer. Of live, winged shadows; deepening into Night. Of Twilight touching us with cool, still finger. And drawing Day's dull curtain from our sight.

He's Death to Bears. J. B. Thompson, who has killed more bears than any other man in Oxford county, has a few days ago with two cubs, Thompson attempted to capture the little fellows, but the mother put up strenuous objection and chased Thompson at a 60-mile-an-hour gait down the mountain.

"Never mind," said Thompson. "I will pay Mrs. Bear back by killing her next fall when I can get \$5 for her nose, \$10 or more for her skin, some tender bear steak and some fat for doughnuts. Ever fry doughnuts in bear fat? Well, now I tell you that's a dish for a king.

"How do I trap 'em? Well, that's easy to tell. They are several ways and for bait we can use either meat or fish. You know the bear is very fond of mutton and up in Oxford county are very destructive to sheep. When they kill one they eat what they want and then return to the body again the next night. When we find a dead sheep partly eaten we set a trap right side of the body and cover it with leaves and fine brush. Almost invariably the bear will walk right into that trap the next night, so you see that his sense of smelling iron is not so very keen after all.

"Another way of catching bears is to build what hundreds call a cubby. It is a little house made of logs and the trap is set at the mouth. On the inside of the cubby we hang up a fish or a piece of meat. The bear smells the bait and after finding the house he hangs around for some time before making up his mind to go in after it. Finally his hunger gets the best of him and he makes a break for the meat, but runs right into the trap.

"This is only the beginning of the racket. We never fasten a trap, for if we did we should never catch a bear. He will tear his foot out every time. We simply hitch what is called a clog to the trap.—Bangor News.

The Summer Girl. Summer is the test time of the manners and principles of a girl who for the rest of the year has little to tempt her from accepted standards.

Most girls get away from home in summer, if but for a few weeks. If they do not spend hot weather in a round of visits they go to a summer resort or take a trip. They meet strangers and are making impressions that may be, undesirable, good or bad, says an exchange.

It takes an exceptional fine nature to keep natural when among strangers. Some girls become shy and appear almost rude; far more girls show off and forget their principles.

The well-bred girl knowing that travel is the great educator, is never coy with the people she meets from day to day. While there is no undue rushing into familiarity, pleasant acquaintances can be made that later may ripen into friendship.

Far greater is the danger of girls getting quickly intimate with strangers. Besides being in bad taste this may become embarrassing later when one has sized up the situation and has learned her mistake in judgment.

Nothing is so disgusting to the people worth knowing as the girl who plays for notice. She might as well label herself "attention seeker," for no one is fooled as to her actions.

A girl should no more permit herself to show off to strangers than to those who can spot each skeleton in her closet. Friends will make allowance for the vanity of youth, think of the worth behind the folly; strangers think it ill-bred and common.

Sometimes the quiet mouse of a girl will assume "sporting" airs when off on her summer trip; often the quiet mouse is at home the wider the fling in the new environment. Just because she is adopting a pose she goes to lengths that the really loud girl would not, and she is misjudged.

There is no excuse for the quiet girl. Unaccustomed attention goes to her head. Circumstances may have been against her at home; she may be over-ridden by parents, pushed into the background by older sisters, or socially not in a position to gratify her natural love of a good time.

No one will blame her for coming out of her shell; it is destroying all semblance of that shell that causes the talk. Strangers are not expected to know that the girl who flaunts herself on the beach, basks corners, shows chaperones, makes herself conspicuous in the ball room, is merely socially inexperienced, instead of socially defiant.

When it is possible to have a glorious summer within conventional lines it is a pity that girls so often overstep those lines in their eagerness to enjoy each minute of vacation time with pleasure.

It never hurts to err on the side of being over-particular in one's manner and actions. Particularly is this so when a girl is the target for the caustic comments of those who have no other means of judging her save by appearances only.

FRYEBURG. Abbie Walker has gone to Madison to teach. Clarence Stone is spending his vacation at home.

Mrs. T. W. Dunn of Thomaston, is a guest at T. L. Eastman's.

Prof. W. A. Robinson and wife have returned to their home in Arlington.

Helen Hodson, F. A. '10, has gone to Salem, where she enters the Normal School.

Jessie Walker, F. A. '10 has gone to Bradford academy, where she is to continue her studies.

Mollie Hutchins is home from Baldwin, where she has spent several weeks at her grandfather's.

Calvin Austin, president Eastern Steamship Co., Boston, has been the guest of his mother, Mrs. Elizabeth Pillsbury.

Mrs. C. D. Barrows is at Mrs. G. S. Barrows'. J. Stewart Barrows and Mary Barrows have returned to Boston, after a few days at home.

Albert Page, a student of the academy in the '70's, now a business man at Malden, has been a guest at Abby Page's; also his sister, Lilla Page.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your

water and let it stand twenty-four hours.

A brick dust sediment, stringy or milky

appearance often indicates an unhealthy

condition of the kidneys; too fre-

quent desire to pass it or pain in

the back are also symptoms that tell you

the kidneys and bladder are out of order

and need attention.

What To Do.

There is comfort in the knowledge so

often expressed, that Dr. Kilmer's

Swamp-Root, the great kidney remedy,

fulfills almost every wish in correcting

rheumatism, pain in the back, kidneys,

liver, bladder and every part of the urinary

passage. Corrects inability to hold water

and scalding pain in passing it, or bad

effects following use of liquor, wine or

beer, and overcomes that unpleasant ne-

cessity of being compelled to go often

through the day, and to get up many

times during the night. The mild and

immediate effect of Swamp-Root is

soon realized. It stands the highest be-

cause of its remarkable

health restoring prop-

erties. If you need a

medicine you should

have the best. Sold by

druggists in fifty-cent

and one-dollar sizes.

You may have a sample bottle sent free

by mail. Address Dr. Kilmer & Co., Bing-

hamton, N. Y. Mention this paper and

remember the name, Dr. Kilmer's Swamp-

Root, and the address, Binghamton,

N. Y., on every bottle.

Passing of the Maine Chautauqua Grounds

at Fryeburg.

It is, in truth, a strange turning of

the wheel of fate that brings to Fryeburg,

long and widely renowned as the Maine

Chautauqua grounds, so sad a destiny as

complete disintegration on the auction

block, says the Boston Globe.

Cutting down the abrupt descent from

the plateau to grove level, one might al-

most imagine himself back in good old

Chautauqua days on beholding the crowd

about the hotel piazza, or wandering

over the grounds—all except the car-

riages, and the horses contentedly

grazing under the trees, a sight

unfamiliar in those (11) golden days.

An auction is always attractive, but

one so unusual, with the added charm of

one last picnic on the river bank, drew

people by whole families from all the

township and beyond. Cots, bedding,

lamps, dishes, old pumps, piano, organ—

a miscellaneous collection, while bids

ran the scale from 5 cents upward.

Normal hall, center and soul of Chau-

taqua classes and the summer school,

has been presented by the owners to

Fryeburg academy for a gymnasium and

will be removed to the village. The au-

ditorium suffers the inconceivable trans-

formation into a barn.

These rafters, that soaring roof, that

have echoed the voices of such speakers

as Edward Everett Hale, Mary A. Liver-

more, Alice Freeman Palmer, Dr. Ly-

man Abbott, a long line of brilliant

memories, whose very timbers have

thrilled to the music of Wolf Fries and

the scores of artists, vocal and instru-

mental, who here gave us their best,

must surely retain some halcyon asso-

ciation, incommunicable, that even cattle

may feel.

A varied history here, these quiet

acres along the Saco's east bank, half

maple grove, half pine woodlands, dedi-

cated for two generations to religion and

science and philosophy and art.

In the 70's a Methodist campmeeting

flourished in Martha's Grove, then the

estate of Mrs. Eben Nutter, of Portland;

days when "Campmeeting" John Allen

and other famous exhorters held eager

congregations by the spell of their elo-

quence in those open air sessions be-

neath the flickering sun and shadow of

the maples.

In 1886 the Maine Chautauqua union,

which had met once or twice, became

the dominant force, replacing the uncer-

ered benches by an auditorium on the

river bank. About this time the Frye-

burg horse railroad appeared, connecting

the grounds with the Maine Central

station, 2 1/2 miles distant.

Not long after the society purchased

the grounds, and cottages supplanted

the tents of previous years.

Under the able leadership of Rev. Dr.

George D. Lindsay of Waterville and

Portland the Northern N. E. S. S. assem-

bly and Maine Chautauqua grew to

be an influential center, for some 15

years attracting visitors from all over

New England, as well as far distant

states, and breathing into the apathy of

NORWAY AND VICINITY.

Annual Reunion of the Hobbs' Family.
 As has been their custom for several years past, the members of the Hobbs' family held their annual reunion, the principal exercises taking place at the home of Adna H. Hobbs, 124 Lyndfield street, Lynn, Mass., with a dinner at Camp Clara on the shore of Sluice pond. Seven of the eight children were present, and with the grandchildren and great-grandchildren there were 21 who sat down to the table to enjoy the family dinner. The mother died two years ago but their father, William O. Hobbs, was present and occupied the seat of honor at the table.

The following are the children:—Mrs. E. A. Cox, and Walter O. Hobbs of Norway; Annie M. Hobbs of Lynn, Fred J. Hobbs of Hudson, W. Herbert Hobbs of Vermont, who was unable to be present; Adna M. Hobbs at whose home the celebration took place; Mrs. E. Gilman and Mrs. C. Cummings of Hebron.

Sunday, Mrs. Gilman entertained the sisters at her home, 355 Broadway, and had also as a guest a cousin, Effie Green, of 25 grandchild iron one, an infant, passed away, there are also three great-grandchildren living. In the evening a social time was spent together and supervised.

In the afternoon the literary part of the reunion took place at the home of Adna Hobbs with the following interesting program:

- Roll call of eight children.....
- A short story of his eight children.....
- Original thoughts..... William O. Hobbs
- Song..... Mrs. E. A. Cox
- Short sketches of the old home life.....
- Diet..... Annie and Walter Hobbs
- Letter on home life and influences of the home.....
- Original poem..... Robert Hobbs
- Building material, moral and spiritual.....
- Recitation..... Adna Hobbs
- Recitation..... Mrs. C. Cummings
- Recitation..... Eight children
- Recitation..... Everett Gilman
- Recitation..... Doris Gilman

The Norway Liberal Institute.

The Norway Liberal Institute was opened in 1887 with Ebenezer P. Hicks, principal; Jacob W. Brown, vice principal; John O. Coolidge, Charles H. Nickerson, Silas S. Gifford, Lemuel Bourne, assistants; Isiah H. Baker, teacher of penmanship; Mary E. Chase, preceptor; Mary A. Addison, teacher of music; Anne N. Deering, teacher of drawing and painting. Number of male students 88, female 91, total 174.

Noble's Corner.

Ross Upton, who has been sick, is gaining slowly.
 Charles Seavey and Arthur Richardson of Norway were at Cora Wood's, recently.
 From 3 1/2 acres of ground O. B. Upton had 204 bushels of oats threshed this season.

NORTHWEST NORWAY.

Bon Richardson is fireman for the E. F. Webb Co., at the corn shop.
 B. F. Judkins, who lives on the Cox farm, has been getting up fire wood.
 Stephen Abbott has been hauling wood to the Holt schoolhouse with four oxen.

Fred Pierce has bought the cream route of Arthur Meserve and is carrying cream.
 Mr. and Mrs. John Frank are working at the corn shop and have got rent in the village.

Hazel Foster, who has been boarding at George Abbott's, left to go to Brockton, Mass., to attend the wedding of her cousin, Gladys Wise.

Lucy Haskell, Mr. and Mrs. Herman Haskell and daughter, Zilka, from Sweden recently visited Everett Kimball's and Charles Merrill's.

Ben. Richardson has bought a cow of R. E. Kimball. Mrs. Richardson has three regular butter customers and sells butter at the stores besides.

Dora and Francis Kerwin, who have been visiting Mary Shedd, have returned home to Concord, Mass., Dora is teaching and Francis is attending school.

Care of Hair in Warm Weather.

Lucky the woman whose hair in summer does not bother her. It requires a light, dry, curly or fluffy hair for this beautiful state; the rest must recognize themselves to looking frights or learn to overcome their disabilities.

Where hair perspires it needs frequent shampooing and sunbathing not to get musty and unpleasant. It should be wiped off with a damp towel each night to remove dust that may cling to the surface.

It is a mistake to powder the hair in hot weather to keep it from looking oily. It quickly will put the scalp in an unsanitary condition, especially if the head perspires.

Brushes and combs need more frequent washing in summer than in cold weather. It is quickly done by dipping in ammonia water, long hair and loose dirt having first been removed.

INTELLIGENCE COLUMN

Twenty-five words or less, one week, 25 cents; second week, 15 cents; each additional week 10 cents.
 Each word more than 25. One week, 1 cent, and each additional week, 2 cents.
 This price is for cash in advance. One and two-cent postage stamps taken.

WANTED a girl who can operate on Olivo typewriter machine. Permanent situation. Address or call on F. W. Sandborn, Norway. 361

TO LET An up-stairs rent of 5 rooms on Main st. For further information apply to Dr. L. H. Trufant, Norway, Me. 361

The Troublesome Man.

Norway, Sept. 5, 1910.

Good morning Mr. Editor,—or rather good evening, you see it is impossible for me to get started right away I can fix it, so you will kindly overlook any little mistakes that may occur in this account of how I fared by being obliged, and letting another man take my place in the shop while I went, picking sweet corn for one of the boys in the shop.

Now it is funny isn't it, that no matter what I do or where I go there is sure to something happen to make me the goat of the gang. But then, they always told me there must be one fool in the family. I suppose the rest of my family must be mighty bright, because I know for a fact that what fool there is in me is enough for at least a dozen, and there were—let me see, O yes I know now, there were just five beside me, that makes thirteen doesn't it?

But I didn't start out to tell you of my folks. I think I was going to tell you about picking sweet corn. Well now, you will say, I don't see anything funny about picking sweet corn. Sure there wasn't, and I am pretty sure that that were in that particular corn picking did not find it very funny, after near half past two.

If you will just look back to that date I mentioned at the top of this little tale, you will find that it rained, and when I tell you that we five worked in that rain for two long hours, yes they were the longest two hours that I ever saw, and I have seen some pretty long ones; why you see there was nothing funny about it, no, not for us.

Well not being satisfied with being soaked to the skin, I must of course do something to make myself the one in the crowd to get laughed at, and I will tell you now that I did not feel one bit funny.

Yes I will tell you how it happened. I don't think that people in building card bodies to haul corn in ought to be allowed to make them three and a half feet high and then not being contented with that they must leave the cleats sticking out six inches higher. They know that if I was around there would be trouble of some kind before I could get away. Yes that is it, get away.

Well sir I tried my best to get away, and struggled, squirmed and kicked for three minutes before I succeeded in kicking the blamed thing off.

Why no, it was my pant leg. I didn't know but you might think it was a snake or something, but it wasn't, it was that pant leg; but that was enough for me. I have told you about the cart body and the cleat; well that would have been all right, if I had not tried to be a smart old man, and if that cursed felled hole had not been in the lower end of my pants leg. But those sixty years of mine will not down. That hole had to be there, likewise the cleat, and when I made my bold spring from the forward wheel, intending to alight on that cart body, I got my intentions stopped on. That is not the word, I got them hung, hung up on top of that cleat, and when I did get clear and safely land in the cart, the first thing I done was to look if any one was looking.

Yes, they all saw how neat I been it, and how spy I was. Watch me when I go anywhere again. I shall remember that there have sixty years passed over my head, and I shall take good care that there are no holes in my pants, and in part, I will try and act out the old cuss that I really am. Yours for pity, that I really am. The same fellow in more trouble again.

Home from Woods Hole.

Leaving Woods Hole at six twenty, a. m., we, son and writer, arrived at Plymouth at nine a. m. This is or said to be the sacred spot of all descendants of the Puritans. It would be if it were not so commercialized. Plymouth is one of the leading manufacturing cities of Massachusetts. The average traveling man might go there and not know it was different from any bustling town.

To those who are filled with love and reverence for the Pilgrim Fathers, the town is full of landmarks and memories of these old pioneers. Pilgrim Hall is a large brick building with a wood front, queer combination. The treasures there are worthy of the grandest structure the people are capable of building, relics, manuscripts that are simply priceless stored in a building that could be destroyed in a few moments by fire.

Burial Hill, a short walk from the Hall but almost in sight of Plymouth Rock, is filled with the remains of the old Pilgrims but there are but few of the original Mayflower passengers here. There, or at least there are but few stones to show for them.

The first of those were buried secretly to hide their losses from the Indians. The burial ground is very interesting; but one has to be on their guard to escape the professional guides who have learned the location and text of the more noted places. They will recite with all the frills of a ten dollar eloquentist the epitaphs that one can read as they run; their stories may be true or not. They endeavor to be interesting, if not to the point that is all right for the place but the surroundings are enough to take all the sentiment out of it. It might as well have been covered by a wharf as was intended with a milk stool tablet as they have in other places in the town. There will be found in various places a stool or post with a disc, telling this is where the fort was, or on this spot stood the watch tower, first made of wood, later of brick, but nothing but the stool to show for it. Evidently the people of this town do not want to know any sleep worrying over the western farmer. He is abundantly able to take care of himself. He is buying automobiles in large numbers, but he is not mortgaging his land for that purpose.

The farmer has learned that the auto is a good investment. It saves him much time and labor, his most valuable commodities. It affords recreation for his family, which it needs. The average purchaser of an auto buys for pleasure alone. The farmer buys for both business and pleasure; he considers it a profitable investment, and he can afford to make it. The indications are that the sales of autos to western farmers the coming twelve months will be far greater than ever before.

The election is over, but we have yet to face the legislative session. We aren't all alike. We can't and never shall all agree. It would be a dirty thing if we did. But let's forget our little differences. Let's get far, far away from the narrow view. Let's pull together on the big things for our own town and county and state.

After Maine Log Haulers.

Two men from Australia, visiting in the United States, and spending September days touring Maine and New Hampshire, passed through Norway in their automobile on their way to see some of the steam logging outfit in operation, which they propose to take with them to Australia for lumbering operations there. They said they had heard of the invention of a Waterville man in the far-off tropics.

The steam logging outfit is no novelty to most Maine people, for it has been exhibited at many of the county fairs and has had service in the lumber woods several winters.

The machine is driven by a 100 horse power engine. The boiler is a regular locomotive boiler, fitted up with the necessary injectors, water tank and suction hose for taking water from springs or streams along the road, also with a cabin and wood box in the rear.

The machine is reversible, the same as a locomotive, and will run on any rails as well as the other.

The machine will travel about six miles per hour and haul 20,000 feet of spruce lumber. Wheels are used in the summer and runners in the winter; they have an endless lag and, which makes the rear runner carry practically the whole weight of the machine of about 15 tons, with the exception of about one ton that bears on the forward sled.

The runner is driven by a pair of engines and takes its steam at five-eighths stroke, so it can never get on dead center. The runner of the endless lag bed is made of steel castings, joined together in such a way as to run over the sprocket wheels with the tacks cast on them the same as on a horse, so when they come in contact with the snow or ground there can be no slipping even if they strike glare ice.

The runner is driven through its sprocket wheel, which is constructed in such a way that the runner can tilt at any position that the road may require. The entire weight of the machine sets on a five-inch axle running through the runner and hung loose at the ends so that the runner always tilts easily over rough going, rocks or anything that it may come in contact with, with a remarkably easy and quiet motion, which it is impossible to get from a round wheel.

Comradeship and Marriage.

An English View of American Woman and Her Husband.

The freedom of companionship permitted to young persons of opposite sex before marriage in this country, as contrasted with the extreme aloofness enforced by custom in Europe, has often called forth comment from visiting foreigners.

A corollary fact has, however, escaped observation. This is the husbands and wives in this country. American married couples often lead separate and distinct lives. As a rule they cultivate less intimacy of daily relationship than is customary in English homes. One is tempted to enter the fiercest observation that they exhaust the pleasures of comradeship before marriage and naturally drift apart later.

But the real reason lies deeper. It is twofold. On the one hand, the absorption of the American man in business leaves him little time for the pleasures of simple domesticity. And on the other hand the addition of the American woman to ultra-moral pursuits—charities, social culture, and what-not—takes her out of the house and exhausts her energies in a multiplicity of duties.

Whatever may be the explanation, the fact itself is patent. It is, forcibly stated by an anonymous writer in the London Times, in a disquisition on American and English girls:

"Women are considered by the Americans as a rare asset, who must be placed upon a pedestal and propitiated by much attention and many offerings. In a sense the chivalric instinct is almost too deeply implanted in the American man, and in many of his ideas concerning women he is, although he would be horrified to be told so, curiously medieval."

And here again we come upon one of those deep lines of cleavage which divide the American ideals for womanhood from the English. In England, before marriage, the man and the girl see comparatively little of each other, but after marriage the common life is a necessity, and the woman must be prepared to study his interests and to make them more or less her own.

In America, before marriage, the man and the girl are excellent friends and comrades, enjoying much freedom in their intercourse; after marriage the two seem to live separate lives. The man is wholly wrapped up in his business, and the woman, when her work in the house is over, devotes most of her energies to the pursuit of social pleasures.

In fact, they cannot really be said to lead a common life. The idea of marriage settlements or a definite allowance is abhorrent to the American mind; and yet, when all is said and done, the American man with all her independence, is the most dependent of women; for is not he who holds the purse-strings after all the real master? * * * It is, more than probable that the large number of divorces in America are due to the uncongeniality of the two sexes. The woman goes to find a real partner and comrade in life instead of the mere financial agent that the average American man is contented to be."

Small Things.

There are many small things about a farm, none of which are individually of great importance, yet of which much depends on their being looked after with diligent care.

A rail dropped from its place on the fence may be of little account, yet it leaves an evidence of neglect which if followed by others of similar nature serves to leave an evidence of neglect that soon passes for much more than the first offense may indicate. It costs a trifling sum to replace the rail on the fence at the time of its discovery, and the labor would never be missed from other duties, if then attended to. Left for the time, and still others of a similar nature are added to it, not only is the evidence of neglect left apparent, but the cost of repairs becomes burdensome.

At no time during the whole year will there be found a better time to look after these small matters than is the case at this season between the midsummer and the late fall. The rain is gathered in the ditches usually are a few days that can be devoted to farm work outside the regular farm duties. These days should be improved in bringing up all the work that would otherwise be neglected, and none of more importance than these little things so often neglected.

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her

Knoxville, Iowa.—"I suffered with pains low down in my right side for a year or more and was so weak and nervous that I could not do my work. I wrote to Mrs. Pinkham and took Lydia E. Pinkham's Vegetable Compound and Liver Pills, and am glad to say that your medicines and kind letters of directions have done more for me than anything else and I had the best physicians here. I can do my work and rest for two long hours. I feel like the Pinkham remedies."

Mrs. C. FRANKS, R. F. D. No. 3, Knoxville, Iowa.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

Mrs. Young's War on "Fads."

Mrs. Ella Flagg Young, superintendent of public schools in Chicago, has begun a crusade to reform the course of study. "We must not confuse the real part of teaching by adding too many trimmings," she says. "I think it is time to lay more force on the old forms, the necessary fundamental subjects. I think the time has come when we must put a check on the fads of the school curriculum. We must have a core which of the so-called frills are really useful and which are not."

That, it would seem, is getting back to first principles. The fact seems to have been realized that all along the line the main purpose of the school has been lost sight of. We have crept into everywhere what Mrs. Young calls "frills."

The fundamentals, the rudiments, have been lost sight of. Children have been led to believe that they must be entertained while they are being taught; that the morsels of knowledge which they are supposed to pick up along the way are bitter pills around which there must be placed a sweet coating to disguise their unpleasant reality. To meet with the school authorities have dealt with the pupils have let the schools and entered upon life which in itself is not superficial at all with a superficial training.

Now, all these deficiencies—for they are deficiencies—must be supplied. The business man, who deals with things as they are, is forced to accomplish by such processes and methods as he may devise the task which has been left undone. The young man or young woman who comes to him untrained pays the price in the end.

But he must do this, because they are not full-fledged wage earners when they are turned loose upon the world. They are well grounded neither in the practical nor in the theoretical. A theorist is not hopeless. He very quickly learns to apply his knowledge, if it is knowledge, to the things of the world. But he or she who is neither practical nor theoretical, but simply the possessor of a mass of superficial facts which cannot be applied or classified, is a problem which some one must solve.

It is encouraging that Mrs. Young, a recognized authority on such matters, recognizes and has the courage to declare the need of the hour. She realizes that there is growing unrest in educational circles because of the very condition which she points out. But the pointing out, in this case, is not the solution.

There is a great piece of machinery which must be reconstructed before it can be made to operate as Mrs. Young and others desire that it should. The demand for this reconstruction must come from the people and be enforced by them.—(National Daily.)

Farmers and Automobiles.

During the past month or so the western farmer has been the subject of much criticism at the hands of certain eastern financial interests, who say that to some extent the lightness of the money market has been due to his heavy purchases of automobiles. Stories have been circulated to the effect that hundreds of western farmers have mortgaged their farms to buy motor cars, and this will sooner or later mean financial trouble.

Eastern financial friends need not lose any sleep worrying over the western farmer. He is abundantly able to take care of himself. He is buying automobiles in large numbers, but he is not mortgaging his land for that purpose.

The farmer has learned that the auto is a good investment. It saves him much time and labor, his most valuable commodities. It affords recreation for his family, which it needs. The average purchaser of an auto buys for pleasure alone. The farmer buys for both business and pleasure; he considers it a profitable investment, and he can afford to make it. The indications are that the sales of autos to western farmers the coming twelve months will be far greater than ever before.

The election is over, but we have yet to face the legislative session. We aren't all alike. We can't and never shall all agree. It would be a dirty thing if we did. But let's forget our little differences. Let's get far, far away from the narrow view. Let's pull together on the big things for our own town and county and state.

THE JAMES SMITH SHOE STORE
NORWAY, MAINE

Health vs. Wealth

We cannot all be wealthy; but we can all be healthy, which is far more important. The young man who protects his health with the true "F. F. F." medicine has a good chance of becoming as rich as the old man with the prospect of getting much more enjoyment with his riches.

You cannot protect yourself with this wonderful remedy from the common ailments such as constipation, biliousness, colds and poor circulation and thus avoid the more serious diseases that are apt to follow.

"Several months ago I had considerable trouble from indigestion. I took one bottle of F. F. F. and was greatly benefited. I am nearly 37 years old."—J. F. F. on every bottle. At your dealer's, 30 cts. for a large bottle. Write for liberal sample to THE "F. F. F." MEDICINE CO., Portland, Me.

Have "Good Luck" Each Baking Day

For "luck" lies mostly in the flour. The wise cook uses William Tell and knows her bread will be perfection—her cake a marvel of delicate lightness—her pastry tender and flaky.

William Tell Flour is made from Ohio Red Winter Wheat—which has no equal. There is only a limited supply—enough to go around among the housewives who have learned the value of perfect flour.

Order your sack today.

Historical Stories.

In a Desperate Condition.

In the history of Paris: "Aunt Katy Macomber," as she was familiarly called, the widow of Job Macomber, was engaged to be married to Joseph Cole, but to go to Hebron and keep house for Dea. William Barrows, who had lost his wife and wanted a housekeeper. She heeded Smith's advice and went to Hebron, and in process of time became the wife of Barrows.

Under the law of that day, the husband was liable for the debts of the wife contracted previous to marriage, unless she came to him in a destitute condition. In order to evade the conditions of the law and relieve her proposed husband from the responsibility of paying her debts, Aunt Katy, on the day of her marriage, repaired to the house opposite the Deacon's house, and discharging herself, ran back across the road clothed only in her undergar.

A Bad Bargain.

The Bethel history says: "Tommy" lived at the lower part of the town and was a character in his way. He had no school privileges when young and so had no education. He bought two wild lots of land between Locke's Mills and the Androscoggin, before the Otter pond road was built, put him up a shanty, and while his mother (his father having died) did the housework, he attacked the forest and cleared his lands.

After a time he was married, and then he threw his old mother upon the town. He became a forehand farmer, but it seemed almost like retributive justice, that adverse circumstances in later years should make him a town charge.

His wife died of consumption and he married a second. She also was a feeble woman, and he always claimed that he had been cheated. Speaking of the circumstances: "Why," he would say, "when I went to see her, her friends had collected all the yarn in the neighborhood and put it up her nose, and made me think it was her own spinning; and now," continued he, "she hasn't seen a well day since I owned her, and it will take two or three hundred dollars to get her through."

Close Calculation.

In Woodstock History—Cases have sometimes occurred where persons who wished to have the nuptial knot tied have tried to beat down the parson's fees, but it is not very often that one who wants to get married tries the market as he would in selling his farm produce. But such a thing did occur in this town.

Mr. S. had bought and prepared the nest and snared his bird, and now wanted to have the legal formalities gone through with; so he went to a Justice of the Peace and asked the terms. He was answered that the legal fee was one dollar and twenty-five cents, but applicants for such service generally paid two dollars or more.

He said, "A dollar and a quarter is a darned sight too much for ten minutes' work, so he went to another and asked the same question, and was answered in essentially the same way. He asked if the fee could be paid in shingles, and was answered in the affirmative.

He considered a moment, scratched his unkempt head, and then suddenly exclaimed: "By God, I've got it. My cart wheels have got to be repaired, and I can get Elder Ricker to do it for a dollar a day, and he can marry us, and at nighttime, and it won't cost me a darned cent," and away he went to put his brilliant project into execution. When he succeeded to his mind, or not cannot be stated.

A Parallel Case.

The Norway History—It is related that at a town-meeting when the contest was between the Democrats and Whigs, a man by the name of Dunn, weighing two hundred pounds or more, was prevented from voting on account of being helped by the town, and feeling as though he was deprived of his rights, he made the following remark:

"Mr. Moderator, my mother was the mother of seven sons, all robust and hearty men as I am, and more than all that they were all Democrats. I don't think you can find such an instance in history," and down he sat.

Hoyt Pingree, who was present, and who was a Whig, was on his feet in a moment and said, "Mr. Moderator, I have read of a case similar to Brother Dunn's in a large book I have at home. It is the case of Mary Magdalene."

An "Old Rail" Line.

In the summer history we read: The only instance of anything like a mob or riot occurred more than half a century ago. A certain man of doubtful repute was generally supposed to be living an intimate and dissolute life with his sisters, and the people becoming disgusted with the affair decided to rid the town of his presence. As gentle hints did not avail they decided to procure an "old rail" line for him with a complimentary ticket for him to Buckfield.

As this occurred before the days of the steel rail, no other method seemed to be available but a wood fence rail. They went by night, and kindly made up the train at his door and invited the victim to a free ride, giving him the preference of the center seat on the carriage. They assisted their honored guest to the best seat, and the train started and did not stop at way stations until the conductor whispered "Buckfield."

This was the terminus of the line and the train stopped, the victim dismounted and the train men after taking water (?) started home.

The company only made one trip, as it proved effectual. Some of the leading citizens helped make up the party, and for neatness and dispatch it eclipsed the old F. O. J. Smith line and made better time.

A Comprehensive Oath of Office.

Benjamin Chadbourne was the Constable of the town of Harrison for the year 1819, and his oath of office was as follows:

"Whereas you, Benjamin Chadbourne, are chosen Constable within the Town of Harrison for one year, now following, and until another be chosen in your place, do swear that you will carefully attend the preservation of the peace, the discovery and preventing all attempts against the same, that you will duly execute all warrants which shall be sent unto you from lawful authority, and faithfully attend all such directions in the laws and orders of courts as are, or shall be, committed to your care; that you will faithfully, and with what speed you can, collect and levy all such distresses, rates, assessments, and sums of money, for which you shall have sufficient according to law, render-

TRUTHFUL ADVERTISING THE BASIS OF SUCCESS.

Since the Ingredients Entering Peruna Are Known, Its Power as a Catarrh Remedy and Tonic is Understood.

COLUMBUS, OHIO.—The active ingredients entering the most popular household remedy in the world have been made known to the public. This means a new era in the advertising of popular family medicines—Peruna leads.

Peruna contains among other things, golden seal, powerful in its effect upon the mucous membranes. Cedron seed, a rare medicine and unsurpassed tonic. Cubebs, valuable in nasal catarrh and affections of the kidneys and bladder. Stone root, valuable for the nerves, mucous membranes as well as in dropsy and indigestion.

log an account thereof; and paying the same according to the direction in your warrant; and with like faithfulness, speed and diligence, you will serve all writs, executions and distresses in private causes betwixt party and party, and make returns thereof duly in the same court where they are returnable; and in all things you shall deal faithfully whilst you shall be in office without any sinister respects of favor or displeasure. So help you God."

Wanted Plenty of Room.

The Waterford history tells this story of David McWain who lives alone on McWain hill.

McWain had a true pioneer's horror of being crowded. One morning as he stood on the huge rock behind his camp (south-east of the old McWain house), he spied smoke curling up through the forest in the direction of Paris, some twelve miles or more away. "Humph," said he, "I would like to know who is settling over there right under my nose!"

His farm was eight hundred acres in extent. He had one hundred and sixty acres of land improved in 1803; that year he kept forty head of cattle and fattened chiefly upon milk, thirteen hundred weight of pork. He died in 1825.

HANOVER.

Jessie Howe was at home from West Bethel Sunday and Labor day.

Mildred Dyer is teaching the fall term of school at Rumford Corner.

Ethel Jordan of Boston is the guest of her aunt, Mrs. C. M. Richardson.

Doris Kimball of Bethel visited relatives and friends in town recently.

Lottie Elliott of Ellis River is spending a few weeks with Helen Staples.

Gladys and Parker Russell returned to their studies at Gould Academy, Tuesday.

Master Lewis Powers returned home Sunday after a two weeks' visit with his sister, Mrs. Edith Thayer.

Master George Perry of Bangor spent the past week with his grandparents, Mr. and Mrs. G. R. Hodgdon.

Joseph Zottoli of Boston is spending a two weeks' vacation with his wife and son at The Ferns, Howard Pond.

Mr. and Mrs. Ransom Twitchell of Milan, N. H., has spent a few days with their sister, Mrs. J. Gardner Roberts.

Eda Palsifer, who has been spending two weeks at her home and with her relatives at Andover, returned to Boston, Monday.

The base ball team played a return game at Andover, Monday afternoon, which resulted in a score of 19 to 16 in favor of the Hanovers.

The base ball team went to Bryant Pond to play a return game Saturday afternoon, but the heavy rain stopped the game at the 5th inning with the score 5 to 5.

A most enjoyable entertainment was given at Union hall, Tuesday evening, Aug. 30, by three young ladies from Bethel, namely, Jane Gibson, soloist; Edith Hastings, reader; Mrs. Martyn, pianist. The concert was followed by a social dance.

The Pierce Library association held a six o'clock supper at Union hall, Friday, Sept. 2d, which was well attended. After supper dancing was enjoyed for a couple of hours. Nearly \$15 was added to the library fund.

Mr. and Mrs. Chas. F. Smith, Mr. and Mrs. E. P. Smith, G. L. Smith, George E. Smith, Mr. and Mrs. H. E. Dyer, Marion and Mildred Dyer, and Georgia Abbott of the village, and Mr. and Mrs. M. A. Elliott, Mrs. Caroline Blanchard and Angeline Grover of Rumford-Point spent Sunday at camp Brul.

SOUTH ALBANY.

School in Dresser district began Monday, Aug. 29, teacher, Annie York.

Lana Morrill of Bethel was here Saturday and bought a cow and heifer of Walter Lord.

Mr. and Mrs. J. W. Dresser of North Waterford visited his father, P. P. Dresser, Sunday.

Montie Grover, who has returned from a year's stay in the West is visiting at C. W. York's.

Mrs. J. F. Lord and daughter, Mrs. Ernest Browne, recently visited relatives at North Bridgton.

Mrs. E. C. Henley is visited by her sister and husband, Mr. and Mrs. Willis Woodleigh of Vermont.

Ernest Browne, wife and daughter, with Mrs. J. F. Lord, have gone to Mrs. Lord's home for a short visit.

Merritt Sawin, Fred Mosher and Ezra Lebroke have been shingling on the roof of Henry Sawin's barn.

Lewis Sawin and Samuel Young of East Waterford were in this vicinity, in search of anything payable in the shape of stock.

Mr. and Mrs. Arthur Millett visited at Merritt Sawin's Sunday and Monday. Mr. Millett and Mr. Sawin went to Lovell, Monday, on business.

Mrs. George Abbott, who injured her hand so severely several weeks ago, has had a long serious time with it and has been obliged to have it dressed by a physician. It is healing nicely at present.

FOR ALL KINDS OF ACHES Apply Brown's Instant Relief Relieves Headache, Faceache, Toothache, Backache, Neuralgia and lumbago when used as directed. All dealers sell it. 25 cts. Prepared by the Norway Medicine Co., Norway, Maine.

How to Attend Fairs.

If one is to get the most possible out of the time required to attend a fair he should go prepared for what is wanted. Thousands attend the great fairs for no other purpose than amusement, and that is the measure of what is obtained for the time spent. At the same time a fair opens the possibility of something more than merely passing away the time.

If a person has a purpose in attending a fair there will be little question but there will be ample opportunity to gratify it. The best of our domestic animals appear at the fairs. In fact the best of everything wanted in common affairs is found on exhibition at these fairs. They are ideal places to advertise and introduce to attention that which is desirable and valuable. Hence if a person is in want of a new and improved farm implement he will find a sample at the fair.

Thus it is that the fair becomes a place for showing and advertising all animals and all implements claimed to be of superior value among the people, and a person desiring information in those directions always finds a fair a desirable place to go to find the best of anything available. Attending a fair with such purpose in view will give interest and value to the time thus spent.

WEST PORTER.

R. Libby attended the baptism at the village, Sunday.

Ora Stevens of Massachusetts is visiting friends in this vicinity.

Sidney Douglass has gone to Kezar Falls to work in the mill.

Mr. and Mrs. J. Libby visited Mr. and Mrs. Dana Weeks, Sunday.

Charlie Thompson has returned home from Effingham, N. H., from a visiting tour.

L. L. Thompson helped F. Day and W. J. Philbrook do their shingling.

The roads in this vicinity have been repaired, and not too soon as they were in bad condition.

Tobias Libby is driving team for C. W. Bibbee and has been hauling lumber for H. Pratt to Cornish station.

Field crops are looking fine in this vicinity. If frost holds off the corn crop will be better than for several years.

Warren Libby of Center Windham and his sister, Mrs. L. D. Cook of Cornish visited his brother, R. Libby, Tuesday.

Wesley Chick, the murderer of Mr. Yarnes, a few years ago was sent home from Thomaston for burial a few days ago.

George Tawkesbury of Kezar Falls spent two or three days at home on account of breaking the saw at the mill where he works.

Ed Glidden has moved his mill to Freedom, N. H., on to the Thurston lot. George Libby has taken the chopping and Arthur Gilman the logging.

Fred Nelson of Center Effingham, N. H., moved their camp onto the side of Green mountain in Effingham, Monday, where they have taken another logging job.

Benjamin Thompson of Cornish held services at the Center schoolhouse recently. Mr. Thompson clips no corners. When he preaches the people who sit and hear him have to take what he gives in the line of truth.

EAST BUCKFIELD.

Milton Lord is at work for C. T. Shortridge.

There was a Sunday school picnic on Carter Hill, Tuesday.

Agnes Ballard of Frye, is visiting her grandmother, Mrs. Mary Douglass.

Lenny Brock and Bessie Walker of Conway, were at Percy Walker's, over Sunday.

Mrs. Frank Hall and Mildred Solomon of Attleboro, Mass., have been boarding at H. M. Lord's.

Sidney Smith and wife of Brownfield, and friends from Portland, spent a night at the Hatch House, recently.

Mrs. Henry Rosenbloom and sons of North Conway, have been boarding at C. E. Smith's.

Harvest time and good crops in Maine.

J. H. FLETCHER
Opposite Elm House, Norway, Me.

On the Grounds.

George P. Downing of Norway, who is selling slightly factory-damaged Radcliffe shoes for women and children, occupies a position at the left of the large hall door.

The New England Novelty Photo Co. has a stand near the hall.

Brackett, Shaw and Lunt Co. of Somersworth, N. H., have a line of gasoline engines near the fence.

A Harrisburg of Lewiston is selling pictures near the main gate.

C. F. Kimball of Norway is selling jewelry and the combination watch for and grip tag on the left of the main gate.

Queen Kitty of Boston, the palmist, will tell your fortune, across from the main gate. "Prophecies of the death of the atrepreneur of Waterville three years ago."

E. Dutton of Leeds has a ten-pin game near the main gate.

Ed. Hughes, who has been at Old Orchard during the summer, occupies the booths at each end of the entrance of the grand stand, where he sells ice cream cones, peanuts, pop corn, soda, cigars, etc., and at the lower end of the stand he serves lunches. He also has a long counter in front of the grand stand, where he sells ice cream, confectionery, etc.

R. J. Ballenger & Co. sell fruit. H. Isaacson of Norway, sweaters, clothing, S. Katz sells fancy articles. M. Suporitz, fruit. J. Sevinne has a line of whips. Zromkin, ice cream and sandwiches.

Prof. Dickson is assistant manager of Rusk, of which George Hartford is cashier.

George A. Gallagher has a carload of peaches, pears and other fruit near the gate. J. Murray is foreman.

Gentleman James, one of the slickest tally-ho men out, is with the Walker show.

E. S. Kilburn of Woodford is exhibiting his health bath in the lower hall.

National Mercantile & Trading Co. of Lewiston is selling clocks, silverware and jewelry.

The Staples Piano and Music Co. of Portland had an orchestra of two pianos and a violin which played at their exhibit. Mrs. Wilson of South Paris also sung. This feature attracted a considerable crowd.

E. Barber of Readfield has a line of watch fobs, bracelets and engraved goods.

Rupert Mixer and Francis Swett of Norway are with the E. N. Swett exhibit at the fair.

Grace Egan of Auburn is playing at W. J. Wheeler's exhibit of pianos.

The I. H. C. cars with the International Harvester Co. exhibit at the fair under A. W. Walker's tent. Those with the exhibit are C. S. Jordan, the Block man and Gene Everett, demonstrator. There is also a line of farm machinery and tools, both horse and gasoline.

H. Morrill of Meliden Whip Co. has a complete stock of whips near the band stand at the fence.

J. M. Stevens & Co. of Auburn sold ice cream cones near the hall.

The Brigade Band of Lewiston played near the main entrance in the morning and at the races in the afternoon, Wednesday.

The tank for the Diving Girls was an enormous one dug on the grounds. Sunk in this hole was a great rubber bag 15 feet wide, 20 feet long and 12 feet deep. The two performers were Margaret Stanton, one of the most famous swimmers in the United States, and the long distance swimmer, Miss Gibbs. Miss Stanton was certainly as graceful as a mermaid and could swim like a fish.

Madam Mac, card reader and palmist, had a tent near the hall.

The Good Cheer society of South Paris furnished baked bean dinners in the lower eating saloon below the hall.

Oh! You crazy house! Oh! You bug house! and it certainly was. You went into a room, sit down and the walls and floor began to turn in all directions where than being sea sick.

The Temple of Mystery. This was the old trick of causing a girl's body to float before a dark screen in a darkened room. Very nearly done.

S. Myers of Boston had a gum pick-out stand. Gum with prizes. He also turns the Hoopla.

Raymond L. Atwood of South Paris has a bunch run about on the grounds for which he is agent.

W. J. Bevin was selling the Yankee Doodle tumbling bugs. Mr. Bevin has to walk on his knees having lost both feet.

Mrs. Fred Mitchell, Mr. and Mrs. A. M. Ring all from Bath, visited John Swain during the fair.

Chas. Abbott of North Abington, Mass., was an interested visitor.

L. C. Abbott, for many years toll keeper at Gilbertville, now living in Livermore Falls, was in the bridge band of Lewiston for the excellent music furnished at the fair. They played sweetly and their popular tunes won favor and applause.

MILL FOR SALE
We offer for sale our steam Saw Mill at Norway Lake for sawing long lumber. It is a good mill and anyone who wants a mill we can give them a good trade. 37-1

PARTIDGE BROS.
Norway Lake, Me.

A fair would be incomplete without John Hazelton of Westbrook, Norway's former famous dancing master and promoter. He was here busy greeting old friends.

Mr. and Mrs. George Shurtluff of Portland are always guests during fair week.

Mr. and Mrs. H. J. Morton of Chicago were on the grounds. Mr. Morton was formerly a Norway man.

Mrs. Emma Swan Injured.
Standing by the rail at the race track near the judges stand Thursday afternoon, Mrs. Emma Swan was kicked by a colt hit her nearby and thrown violently upon the ground. Dr. Bartlett secured an automobile and carried her to her Norway home. The colt from which the carriage and harness had been removed was owned by Mr. Bird of Albany.

Flint's Jungle Show.
Scarlet-clothed Flint and a young coon announce the show that has many new things in the animal line beside some of last year. The line includes a lynx, western marmoset, walzing mice, a Mexican badger, a stoat and a baby bear. There is also a gray possum, silky haired coon, "It" and a white opossum. There is also a funny little monkey that is led around on a chain. The bear alone is worth the price of admission.

The brand new feature of the show is Oop, the Chinese dragon.

Exhibition of Horses.
A large crowd of interested persons was attracted by the exhibition of horses Wednesday forenoon. In the best three-year-old class of fillies or geldings B. F. Cummings of South Paris, showed a three-year-old of unusual merit. A. L. Cummings of West Paris made an exhibit, together with the following horse owners: B. E. Foster, South Paris; Mrs. Arthur F. Morrill, Norway; and A. J. Penley, South Paris.

Among the exhibits of best work horses was won by W. D. Abbott and by J. H. Millett. Mr. Millett exhibited his beautiful "Sam Ayer," a grade Percheron.

George P. Porter, Oxford, was present, showing a three-year-old stallion known as "Sunday Jack," by Ted R. by Francis Co. of Stamboul. Mr. Porter bred this horse himself.

Among the exhibits for draft horses was "Sam Ayer," a 2-year-old Percheron bred for a draft horse by Geo. Westwood.

Harry Millett showed a draft bred horse 14 months old.

Exhibited by E. L. Curtis was a pair of Western Percherons 4 years old which weighed under 2500 and were exhibited in that class.

There were six entries among the green horses. Roy N. Stetson with a bay mare took first money; V. E. Dunn with a bay gelding, R. Cummings, West Paris, 2nd; W. W. Maxim, South Paris, 3rd; B. A. Bailey, 4th; David Record and G. E. Rowe together exhibited a bay mare, which captured second money. The third prize was awarded to H. A. Bailey.

The judges were E. Simmons, M. A. Nevens and A. E. Russell.

The following exhibits were made in the class of draft bred yearlings; V. E. Dunn, Ernest Nason, Morey farm and C. E. Pike, West Paris.

Interesting indeed was the exhibit of colts. Shown by E. Dunn was a bay gelding 2 years old, and black gelding 2 years old; G. S. Westleigh, Norway, blk s 2 years old, Morey farm, McAllis, and George Cole, West Paris. Mr. Cole took first money.

SOUTH PARIS.
Rev. Chester Gore Miller will live in A. C. Hall's house.

Mrs. George Wise has returned from a visit to Amesbury, Mass.

Charles E. Merrill is principal of the school at Southwest Harbor.

Mr. and Mrs. Arthur U. Tyler recently attended Sherbrooke fair. They left here Tuesday morning, returning Friday night. Mrs. Tyler has a Finn woman working for her.

Bertha Dagnell, who has been visiting at B. F. Hicks', has returned to her home in Bridgeport, Conn. Also Flora Ricker Horlow from the same place, who has been visiting at Walter Maxim's, has returned.

Henry Blake, who teaches in Detroit, Mich., and has been teaching in a boys' camp at Bridgton during the summer, has recently visited his father, James Blake, for a short time.

Arthur U. Tyler and C. R. Penley have finished filling their silos. Bion Greeley and crew will have his silage out, also Gilman Penley with his gasoline engine have been helping them.

Robert W. Wheeler and Stanley Shurtliff, who have been in the drug store at Old Orchard for the summer, have returned home. Mr. Wheeler will go to Maine in about two weeks to continue his course in pharmacy.

Mrs. E. N. Haskell gave a party, in honor of Mrs. Nathan Chase. During the evening scissoring was manipulated. Mrs. F. A. Heider out the most graceful curves and won the prize. Mrs. Agnes Morton, manipulation proved wholly original, and she won the trophy prize. Delicious refreshments were served, and a jolly good time was had. Henry Blake of Detroit, Mich., has been the guest of his father, James Blake.

Holmes' notes, proxy blanks, 10 cents a dozen. Sent by mail, ADVERTISER, Norway, Me.

The Vote of Oxford County, Monday, Sept. 12, 1910.

Vote for Governor.

Bangs.

Shelves of canned goods and a case of
canned goods show the rich color of
ripened fruit in every shade.
Those in charge at the hall are
Mrs. John Roberts, Mrs. Emma Swan
Mrs. Ada Will, F. F. Swan and
Vivian Akers. There is a hunter
exhibit over the case of cooked

food at the end. Half of the space is given to fruits and farm products and they show the farmers can raise something worth looking at.

In the general hall exhibits, Mrs. H. F. Andrews has two exhibits in china, paintings one lustre work and the other miscellaneous. The fish set done in

shells and a tea set done in luster are particularly noticeable. Mrs. Andrus has ten water colors. "The Last Rose of Summer" and "He is Risen" have many admirers. She has four oil painting two landscapes and two fruit pieces.

Mrs. J. F. Plummer of South Paris has a sepia in rich dark tones. B. C. Lowe of North Paris, two crayons, oil painting and burnt work.

section for her millinery display and the ladies are much interested in the new styles and shapes so early in the season.

HARRISON.

Bad colds are quite prevalent here at present.

Harold Cole from Boston visited his

Oliver Stevens from Orr's Island was a recent visitor at L. N. Burnham's.

C. A. Lang made a business trip to Norway and South Paris, Wednesday.

The Burnham & Morrill Co., began work in their corn shop last Thursday.

Mrs. Bessie Powers and her daughter Bertha left for Durham, N. H., last Monday.

Mr. and Mrs. Albert Davis moved Monday into their new home on Front street.

Grace Preston and mother of Beverly

Mass., visited the past week with Mr. and Mrs. Oscar Kueeland.

James Stone of Lincoln street was moved to Bridgton, Thursday, by one of the Selectmen of our town.

Cassandra Pierce, who has been spending her eighth summer in our village, re-

turned to her home in Providence, R. I. Thursday.

Mr. and Mrs. Seth Keene, who have been working at camp Wildmere all summer, returned to their home here Thursday.

A home bakery has been opened on Front street by parties from New York.

EAST DENMARK.
Ruth R. Sanborn is sick.
Mrs. H. M. Riggs and two daughters
Mary and Martha, have returned to Graff

H. M. Moxcey has sold his farm where his buildings were recently destroyed by fire to C. C. Cobb.

Mr. and Mrs. Gardner Adams and little girl of Bridgton were visiting relatives in town this week.

Mr. and Mrs. Horace True and three children visited her parents, Mr. and Mrs. Samuel Bryan in Sweden, Sunday.

Mrs. E. A. Ingalls and Mrs. H. M.

Moxcey were in South Bridgton, Thursday, to attend the funeral of Mrs. George Knapp.

After spending the summer at camp Moosehead, Thomas Harmon of Brownfield was at H. M. Moxcey's, Friday and bought a nice yoke of oxen and a beef cow.

WEST FRYEBURG.
Mr. and Mrs. H. D. E. Hutchins have taken a rent at Fryeburg.
Mary Leonard and Sadie Barry of Boston, are at "Maple Cottage," for a short vacation.

Coleman & Seavey are building two houses at Redstone. They board at their homes, riding to and from their work.

corn to the cannery, as fast as possible.
A slight frost was enjoyed (?) the past
week.

Fred Meserve has been suffering with
a carbuncle on his neck, for the past
two weeks, but is much better at this
writing.

Mrs. Elmer Walker, who was so unfortunate in enjoying her outing for a week, at Lake Kezar, was able to return to her home last week.

Misses Leonard and Barry of Boston, with Cassie and Fred Hutchins of this place, enjoyed an auto ride with Mr. Charles L. Jackson, one daughter.

EAST STONEHAM.
Etta Kilgore is at work for J. Bartlett.
Mr. and Mrs. F. H. Bartlett are rejoicing over the birth of a little daughter.
Blanche Cole and Sadie Emery of Saco are visiting at Mrs. Ernest McAllister's.

Dr. Angie of Boston is at his camp on Lake Keewarden. Also Rev. Mr. Eggleston of Brooklyn is in town.

Raymond McAllister and Merton McAllister went to Fryeburg, Wednesday, the 9th, to work in the corn shop.

Rev. W. B. Hague and wife, Rev.

George Bird of Chicago and Mrs. Fannie Ingalls of Bridgton were guests at Dr. Frank McAllister's this week.

The Wyanegonic Camp for girls on Moose Pond, Denmark held their annual water sports. Exhibition of canoe and rowboat skill the attractive feature. A

competitive race between the camps in
row-boats held the attention of the shore
people. A pretty tableau was enacted.
The "braves" (boys?) dressed in Indian
costume, landing on the beach where
the girls were, performed the ceremony
peculiar to the Indians, selected a wife
and placing her in canoe, paddled off.

saying the old squaws on the shore. Cheers followed when one of the girls fell from canoe and the brave with a yell lunged in after her. Bathing and living were indulged in. After it all the "folks" all "ate" somewhere, picnic style.

Spinach is a Persian plant. Horseradish is a native plant of England. Melons were originally found in Asia. Filberts originally came from Greece. Quinces came from Corinth. The peach first came from Persia. Sage is a native of the South of Europe. The turnip originally came from Russia.

NEW FALL MILLINERY

Mrs. R. L. Powers

Opera House Block, Norway

Mrs. Powers and Miss M. E. Adams, trimmer, and Mrs. E. H. Witham, have just returned from market. Call and see the new styles.

All orders entrusted to us will receive careful attention and a guarantee of satisfaction. Largest assortment and latest in this county. Call in and see them.

BETHEL

Gould Academy opened with about 70 scholars.

Ruby Fushard of Wiscasset has been visiting her brother, H. S. Packard.

Mrs. Wilbert Baker has gone to the C. M. G. Hospital in Lewiston, for treatment.

Mrs. Leslie Mason and children of Portland have been visiting Mrs. O. M. Mason.

Grace Dixon of Augusta is visiting her aunt, Mrs. L. T. Barker and sister, Daisy Dixon for two weeks.

Mr. and Mrs. H. A. Packard have been in Monmouth to spend a few days with his brother, Dr. Packard and family.

Rev. Isabella Macdonald has been the guest of Mrs. O. M. Mason.

Mr. and Mrs. John Nelson have returned from a visit to Palermo.

Our milliners, Miss L. M. Stearns, Mrs. Willey, Mrs. Finney and Ethel Randall, are attending the millinery openings in Boston this week.

Gould Academy opened Tuesday with one hundred pupils and more to come. Everything indicates a successful year. Mr. and Mrs. Frank Knight have charge of Holden Hall, and Mr. Knight is also submaster.

The vesper service at the Congregational church Sunday afternoon given by the children of the Sabbath school, assisted by the choir, was a most pleasing service. The children were trained by Miriam Herrick and did their parts very well. Beside the double ladies' quartette, Dr. and Mrs. Wight sang a duet most acceptably. The superintendent, Mrs. W. C. Curtis, gave a short and interesting address. The whole service was helpful and inspiring. Elsie Hall and Ida Dean played the organ.

Saturday evening a goodly number attended the entertainment given by Mrs. J. G. Gehring at the Lounge for the benefit of the Ladies' Club. Mrs. Gehring read a paper upon the Chateaux in France which she visited during her recent trip there. As the beautiful pictures were thrown upon the canvas and Mrs. Gehring described the people and places foreign lands seeing the originals. The historical settings were made very real and we were loath to close our evening of travel. Many thanks are due Dr. and Mrs. Gehring for the hospitality of their beautiful home, and giving us "stay at homes" such a delightful hour of foreign travel. A goodly sum was added to the treasury.

BUCKFIELD.

G. V. Allen has purchased a fine piano of F. E. Tainter.

Mrs. H. F. Rawson has been visiting friends in Portland.

Ella Clapp of the Chadwick House, Portland, has been the week-end guest of A. W. Fottle and wife.

Glady's Morrill has returned from Peak's Island, where she has been doing table work, and will teach at Summer hill school this fall.

W. G. Spaulding and Mrs. Louise Spaulding of Caribou have returned home, accompanied by Benj. Spaulding, Sr., for his annual visit.

Mrs. Hattie Caldwell has accepted a position as matron of Atwood Hall at Hebron. She entered upon her duties at the beginning of the fall term.

Mrs. Alice Taylor of Boston is visiting her sister, Mrs. Eunice Gerrieh.

Mrs. Wm. Fish has gone to Auburn to spend a few days with her daughter.

Mrs. T. H. Hunt and daughter, Mrs. Ulrich, spent a few days with friends in Naples.

R. E. Lee Bridgman of Bar Harbor has been with his father, W. H. Bridgman, for a few days.

Mrs. Lora Loughton of Portland is with her mother, Mrs. Armstrong Gerrieh, for a short visit.

Mrs. J. C. Caldwell went to Hebron, Wednesday, to take charge of one of the dormitories for the year.

F. W. Washburn has been off duty for a week and his substitute, Harold Shaw, has been driving No. 2 route.

Corn shop started Thursday week for a short run. Business will start briskly this week with prospects for a good pack.

Pipe is being laid for the location of a new hydrant to cover the property of Cloutier & Morrill and the Portland Racking Co.

Farming Implements.

The farming implements are displayed this year in a tent 50x40 feet near the entrance of the fair grounds instead of under the grandstand. Son of South Paris are displaying the largest line of F. H. C. farming implements than ever before.

Among the largest machines that attract attention on entering the tent are automobiles. One is the farmer's auto, an auto with two seats with room for the whole family.

The second is a one-seater with space to carry 1500 pounds freight and the 3d is a roundabout. The first two are air cooled, the runabout water cooled.

Among the larger implements are the Gale Baldwin improved, No. 15 ensilage and fodder cutter, and the King Corn, manure spreader. Another good sized machine is the gasoline engine saw cutting outfit on wheels, which enables one to back up to a wood pile and commence sawing. The engine is detachable and can be hauled to other uses when desired. There are also displayed a pumping engine, jack pumps, engine and pumps with direct connection of pump and engine.

One other article that is much used is the Tom Thumb spraying outfit. This is a very compact machine and will do the spraying at 50 pounds pressure.

There are also a large number of smaller implements including disk harrows, with or without the tongue truck; corn planters, the eclipse, and the king of the corn field, also sulky plows, the Oliva and the Wizard; a winnowing machine and hand cutter. These implements have all the latest improvements attached to facilitate the work of the farmer.

Mottled Butter.

The farmer's wife sometimes wonders what causes the uneven streaks, or mottles in butter. Usually the blame is laid to improper salting, but tests show that salt can not produce this result unless the butter contains an uneven distribution of buttermilk.

If the butter is free from buttermilk, no matter how unevenly the salt is mixed, the streaks or mottles will not be produced. But if there is a great deal of buttermilk left in the butter, the union of salt and buttermilk causes the mottles.

When churning is done so as to make the butter granules the size of rice grains and these are carefully washed twice with water at a temperature below 45 degrees F., removing most of the buttermilk adhering to the outer surface of the granules no mottles are obtained.

The amount of proteid in mottled butter is greater in the light portions than in the darker portions, and is the cause of the light color of mottles. Salt brine does not change in any way the color of butter fat. Salt brine, as it commonly occurs in butter, has the power of hardening and localizing the proteid particles, the action requiring several hours for completion.

In the mottled butter the light portions usually contain less salt than the darker portions.

It can be concluded then that mottles in butter are due primarily to the presence and uneven distribution of buttermilk adhering to the outer surface of the small granules, and to the hardening and localizing effect of the salt brine upon the proteid of the buttermilk thus retained in the butter.

The light portions of mottled butter owe their light color to the presence of localized proteid.

The yellow or clear portions occur where the spaces between the butter granules are filled with clean brine and are comparatively free from casine compounds.

Several hours are required to complete the action of the brine upon the proteid of the butter.

Mottles in butter can be prevented by avoiding those conditions that retain buttermilk in the butter and observing those conditions which favor the removal of butter milk from butter granules before salting. The butter granules, as said above, should be about the size of rice grains, and should be washed twice with water at a temperature of 35 to 45 degrees F.

A desirable place on Hillside Avenue, South Paris, is for sale. See ad. Price reasonable and easy terms.

Bible Training.

Parents can't commit their children to the Lord and rest there for their children's character, any more than they can pray for their bread and stop.

And training is necessary. A school can't give a child. The school is not continuous enough for training—not even the day school, far less the Sunday school. Only the home can train—the home which is around the child, one day and another, in normal circumstances for 10 or 20 continuous years.

The adage "A little learning is a dangerous thing" may perhaps not be fairly applied to Bible learning. But if not a peril, a little learning in the Bible is often for the child a totally ineffective waste of energy and a source of misunderstanding. The child who actually says, "may be the net result of years of hop-skip-and-jump teaching; and utter disinterest or even positive repugnance—revolt of an ignorant soul—may close the adult mind against larger impression later.

But if the child life is saturated with the Bible—saturated from the atmosphere of a home always filled full of Bible thinking and harmonious Bible practice—the divine saving power of the word will vindicate itself by shaping the years of growth to the life that will withstand the wear of time and temptation.

The Bible can be dependent on to do that thing because it is the book God made for that purpose. If taken piecemeal, it develops a petty wrangling over questions and criticisms; but if applied whole—made the meat and drink of a young life until the very marrow of it has gone into the marrow of the growing soul—it will produce a great strong, faithful life which cannot be shaken in the universe to forget that it lives in the burning sight of God and must give account.

The secret of character that can't be adulterated by evil is saturation with the Bible.

The secret of such saturation with the Bible is a home crammed with Bible every day from the child's birth.

The most serious responsibility of the Christian father and mother is to create that saturating Bible atmosphere in the home.

Colors for Rooms.

If your rooms are to be redecorated this summer there are many things that should be taken into consideration which are too often neglected.

If you can afford to turn the furnishing over to a professional decorator such matters as light, exposure and color schemes will be treated from an artistic standpoint.

If the rooms open out of one another they should not have different color schemes or the effect will be poor. If you do not like decorating an entire floor in different tones of one color as is now popular, have only two colors in harmonious tones.

For upper rooms the present fashion of having the papers of each room in the same neutral tone with colored borders is good. Soft gray, pale or one or two toned striped white or cream papers are preferred for a foundation.

In a small house it is a great advantage to have the color scheme in one key, as it adds to the apparent size of rooms.

If a room is rather low and dark, a good way to get a lift in the effect is to carry the color to within two feet of the top and have border and ceiling of white. This canopy top is not particularly fashionable, but it makes a difference in the lightness of a room.

If height is a consideration rather than light, run the paper to the ceiling and finish with a narrow picture railing. Striped paper increases the apparent height of a room, but if the proportions are small the stripes should not be broad and preferably one-toned in glazed and unglazed effects.

Exposure of a room and the number of windows should also be regarded in furnishing. The rooms facing south should have a cool, neutral tint, while those toward the north should be given the appearance of sunlight, with warm, cheerful papers that do not absorb light, says the New Haven Union.

Tan is a good paper for a hall, except when it is very dark, when yellow should be chosen. Blue should be used sparingly as it has too cold an appearance for most halls.

Red is an assertive color, but is dignified and needs high illumination. In hall or library it is apt to absorb artificial light and is never restful.

Green is always restful, but care should be taken that it is a tone that reflects light. The blue greens are always dark, though more stylish than those with a tinge of yellow or gray.

Where a house is to be colonial in its furnishings, nothing equals white paint. It goes well with most papers, but needs care and frequent repainting, an objection to the color.

A plain paper of neutral tint forms the best background for pictures, a warm medium gray and a light cream being admirable. Just now gray is in high favor, either in plain surfaces or in self-toned stripes.

WELCHVILLE.

Mrs. Ethan Farris of East Oxford is sick with typhoid fever.

Pauline Jordan of New York is visiting with her aunt, Emma Washburn.

The Welchville school commenced Tuesday; teacher, Florence Hunting.

Mr. and Mrs. Bliss Ames and family came in their auto from Waltham, Mass., last week to visit with their parents, Mr. and Mrs. Seth Ames.

Ethel Gammon and Mrs. Augustus James of Lewiston are visiting with their parents, Mr. and Mrs. Charles Gammon.

LITTLEFIELD.

Herbert Hoyt has been sick.

V. D. Kimball attended State fair one day.

Susan Martin has gone to Hebron to attend school.

Marie Farrar is attending Normal school in Farmington.

Leon Swain has gone to East Andover to work in the mill.

George and Grace Hoyt have gone to Rumford Falls to continue their studies in high school.

Lulu Hoyt is attending high school at Rumford Point and boards with R. E. Knight.

Mrs. Carrie Taylor, who has been working for Mrs. Wm. Reed at Rumford Point, is at her father's.

Mrs. M. E. Small and her daughter Lida went to Portland, Tuesday. After spending a week with friends there, Lida goes to Virginia, where she has a position as teacher in Hampton Institute.

The Horses.

Racing promises to be a history maker. The track is in excellent condition and as fine a string of horses as entered for the various races has been seen for years. Interest as usual centers on the free-for-all. Many speedy horses are here for the first time, together with some of the "stars" that have trotted in previous years.

Among the horses are—Ethel S., Anti Friction, and Leanna, a string of promising ones owned by P. L. Smith, Fryebury. This is the first fair of the season for these horses. Leanna is perhaps the most interesting of all, with a record of 2:15½. She is a black mare, 3 years old and came East only 3 months ago from Indiana where she was a favorite of the track. She is by Princeton, a famous Western horse. After her trial at Norway, she will be taken to Gorham and then to the Fryebury fair.

One of the cleanest looking strings here is the five from the Mayberry Stock Farm at Casco. This farm is owned by C. G. Mayberry of Boston, and Ed. Fisher is in charge of the following exhibit of horses: Dr. Billings, a bay gelding; Montbert, also a bay; Nancy Bingers and Frankie Albert. These are a handsome string of 3 and 4 year-olds, and another season Mr. Mayberry plans to have a dozen fine ones here from the same stock he is trying out on his farm.

Dr. Billings took second money in the 3 year-old class at Lewiston last year, and last week was 3d at the State Fair. Montbert won the 3 year-old State race at Lewiston, three straight heats, in the following time: 2:22½, 2:23½, 2:30½. Nancy Bingers, by Billings, won the first time this season. She is a Nancy Hanks.

The horse that takes the eye of all who have seen him is Dandy Joe, scheduled for the 2:25 class. He is owned by A. S. Fuller of Oxford, and is correctly named. He is, indeed, a dandy, with a line of breeding as long as a man's arm; by Francisco, bam by Essex, by Hambletonian, etc. Dandy Joe is eight years old and weighs 1,100. Mr. Fuller has owned him since he was two years old. For 1909 he started him for the first time at Waterville, then at Bangor, Lewiston, Norway, etc. He received a mark of 2:24½, and out of the eight starts during the season won the money every time and won three firsts.

R. D. Waite of Lewiston family is known as Bob, he here with Bob Patch, a gelding horse, Benone, Joe Hilton, Clarion a by mare, and Knox B a chestnut gelding, for the free-for-all.

F. B. Fogg of Paris is here with his famous Johnnie Direct, a 3-year-old by Count Direct and a horse known as Bryant, which has no record but will start in the 2:50 class. He is by Allen, son of Nelson.

George Clark of Lewiston is here with Stingy Dick, a 6-year-old green horse, a black gelding. He worked this horse at Lewiston last week, showing him in an exhibition mile. This promising horse is by Scarlet Wilkes.

F. B. Rideout of Boston is on hand with five horses: Louise G. by Asoloyne, Catherine F., a 7-year-old bay mare with a record of 2:22½, Eastern Hag, 7-year-old brown mare with 2:27 to its credit. Mr. Rideout drives his own horses and comes to Norway from Lancaster, N. H., where he took 1st money with Louise G. and Catherine F. and 2d money with Harry Wilkes. The latter horse is a bay by Red Elm with a record of 2:24½.

Mr. Rideout also has Directee, by Direct, a green trotter that has been worked out at Medford and starts in the 2:50 trot Wednesday.

F. W. Morrill of Brunswick, the College Stables, is here with Ralph Direct, a green pacer.

The horses commenced to arrive last of the week and each day new strings were added to the list of arrivals. H. F. Andrews and F. P. Richardson both of Norway were in general charge of the horses.

Among the horses in the stalls are found American Bloom, Attorney at Law, Dandy Joe and Alotta from Mountain View farm and will be driven by W. A. Nelson, Lella Wilkes and Achillea which belong to F. O. Walker, of Rumford were among the first to come.

The brown stallion, Alaslone, the brown 3 year-old Stallion Benone, and the chestnut mare, Annie Sidney, came from Cornish and are the property of N. J. Ross.

The limit, the bay stallion of J. S. Robinson of South Windham is on the grounds.

Dimple K., a chestnut mare, Balka, Thomas J., Beatrice and Barron Jay, are here. They belong to G. W. Gerow of Fort Fairfield.

R. L. Cummings and Son are camping on the grounds and have a string of four horses, 1 yearling, which is not named, Chas Bob, a three year old, Nellie a four year old, and Grace a five year old. They were all raised by Mr. Cummings.

Horace Chenery of Belfast has a string from "The Farmers." These are in charge of M. A. Nevins. John Ward 3½, the first record stallion ever bred in Maine; Juanalita a three year old, by John Warden, Mendallita, record 7½. Edgemarks Gift 2:16 and 4 years old, record of 2:24 in the four old class. Junior Ward, a three year old by John Ward made a trial mile in 2:23 in the 3 year old class.

Elsie Snow by Sivad, dan Eagle bird. She is a bay mare 5 years old by Direct, Dan Mendallita.

UPTON.

Mrs. Ed. Warren has gone to Portland. H. I. Abbott has purchased an automobile.

Cedric Juddkins attended State fair at Lewiston.

Harry Clark has finished work at Lakeside House.

Rev. Mr. Gates preached his farewell sermon, Sept. 11.

Frank Vail is planning to build an addition to his house.

Mrs. Carrie Lane has gone to Paris to visit her sister, Mrs. Evans.

Phillip West and wife have been visiting in Canada. They attended the Sherbrooke fair.

Walter Fuller is finishing off the old blacksmith shop on Upton hill for a dwelling house.

Mrs. Annie Clark, Mrs. Carrie Lane, Mrs. Bertha Juddkins, Mrs. Rena Lane and Mrs. Emma Bragg have been helping at Hedgehog Landing at the head of Umbagog lake.

Mr. Blanchard of Wilton recently drove a herd of about 75 cattle, mostly one and two years old, through town. He purchased them in New Hampshire.

"If you save money you're a grinch; if you spend it you're a loafer. If you get it you're a grafter; if you don't get it, you're a bum—so what's the use?"

A COMPETENT OPTICIAN

IS A PUBLIC NECESSITY

HILLS

Optometrist and Optician

NORWAY, - - MAINE

Our Optical Department is the finest and best equipped for examination of the eye in Oxford County.

We correct all errors of refraction with accuracy. Having all modern instruments and a room fitted especially for examination and testing the eyes.

We use same method that are used by the leading oculists in the large cities. We use no quack title such as Dr., etc., to fool the people with.

HILLS is recommended by nearly every first-class physician in Oxford County, what more do you want? LET US TELL YOU THE TRUTH ABOUT YOUR EYES. Don't allow every one to fool with your eyes.

If your eyes need treatment go to your regular physician, IT'S SAFER than fooling with quack doctors, fake opticians, etc.

HILLS' Prices are the lowest. Why pay \$7.00, \$8.00, \$9.00 or \$4.00 when you can get the very same at Hills' for \$2.50 to \$4.00. This price includes "Made to Order," "Toric" and "Special ground" lenses, other glasses as low as \$1.00. All paid above Hills' prices is extra profit. NO MATTER WHAT YOU PAY or what you are told YOU CAN GET NO BETTER QUALITY OR GRADE OF GOODS than is sold by HILLS.

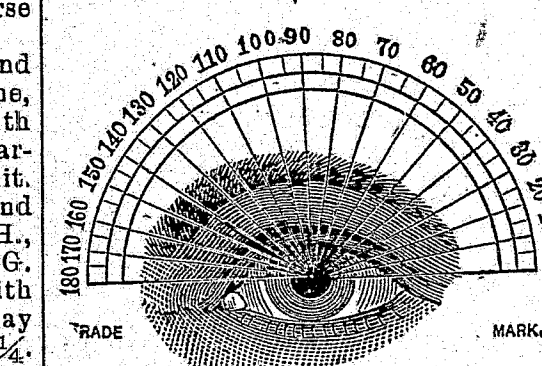

Don't understand us saying we are the only one who can fit you—some "traveling men," "spectacle dealers" and "would be opticians" will fit you so you can see, but YOU WILL PAY DOUBLE THE PRICE THAT HILLS WILL ASK YOU for the same.

How do you know but a pair fitted by HILLS would be less strain on the eye? Try it, for why take chances? Why fool with your eyes.
